Francis Valentine & Co., printers; the Bosqui Printing and Engraving company; Blake, Moffli & Townes, paper warehouse: E. J. Shattuck & Co., ink manufacturers; Commercial Steam Power company, and numerous smaller concerns. Fire Marshal Towe estimates the less at \$300,000, with insurance hair that amount, but the proprietors of the concerns burned out say the loss is concerns burned out say the loss is only \$100,000. tor's sen to secure leave from the authorities to go armed for the protection of his father. For several months past he has been writing similar letters to a number of prominent public men, samong them Vice-President Stevenson, Senators Gorman, Mills, Sherman and President Cleveland and Secretary Lamont. During the fight over the silver question in the Senate, Vice-President Stevenson received letters almost daily from Donjon, then in Newark, N. J.

The vice-president today received one dated from 404 Leigh street, in this city. Donjon talks very rationally and with a rather studied effort to avoid any appearance of bitterness or the expression of any anarchistic views. He is an Austrian by birth and lays stress upon the assertion that he is a Catholic, and professes piety.

As to the letters he has been writing. As to the letters he has been writing, he claims he was incited to write them by other people, receiving \$190 for doing it. He disclaimed they were anarchists or had formed any association, and said they were merely private persons. He denies any threats in the letters or

offer to come on there and make a business proposition to them. The man tells a connected story, but the police put no faith in the assertion that he was incited to write the letters by other necessars.

HOW IT WAS DONE.

The Details of the Kansas and Ark-ansas Hold-Up. Little Rock, Dec. 25.—The first accurate details of the Kansas & Arkansas Valley hold-up at Seminole on Seturday evening, reached Little Rock this afternoon when the robbed train arrived. The train reached Seminole s on Sunday night, shortly after dark. The switch had been turned, throwing the train on the siding. When the train stopped, two men mounted the

train stopped, two men mounted the engine and began by robbing Engineer Bush Harris of his watch and \$40 cash. They then proceeded to the mail car and rifled the mail pouches.

Mail Clerk Pinckney was forced to deliver the registor. A packages, Pinckney was pelleved of his watch and \$5 cents, \$5 cents of which was returned to him to buy lunch. Entrance to the express car was gained without resistance by the express messenger. There was nothing of great value on heard. The robbers commanded Messenger Ford to open the safe, from which they took two small packages, value unknown, and \$100 in money.

Two of the robbers then went through the coaches, while the other maintained a constant firing outside.

So much time had been consumed in the mail and express cars, the passenger had ample opportunity to secrete their valuables, so very little of value was obtained in the coaches. The robbers appropriated all the overcoats and watches in the cars, but the sum total was less than \$500. Several pission.

Bernardino county, a posse and a couple of bloothounds started on the trail of the robbers. Detectives have gone south to work on the case. Crowell, route agent for Wells, Fargo & Co. stated the loss was less than \$180, but would not give the exact amount. He interposed an objection to Messenger Potts making a startment as to what she robbers did with the safe, declarant this might prove injurious to the efforts of the officers who are seeking to cupture the robbers.

The Hold-Ups Have Friends.

Vinita, L. T., Dec. 25 .- The train rob bers who held up the train on the Kansas & Arkansas Valley road at Semin-ole station, last night are believed to ole station, last night are believed to be the same that attempted to hold up a passenger train on the Missouri, Kansas & Texas road on Friday evening at Keleo switch. Bob Rogers and Charley Woolen are thought to be the leaders of the gang that has operated in the northern portion of Indian territory, for the past year, terrorizing the intile community. They have friends who hide them furnish them food and keep them advised of the movements of officers and their capture will be difficult, though strenuous efforts will be made in that direction.

Letters to Public Men.

Washington, Dec. 25.—Joseph Donjon, the man who has been writing threatening letters to a number of prominent public men during the last two weeks, is in fall tonight.

A letter from this man to Senator Mills, a few days ago, caused the senator's son to secure leave from the nutherilles to go armed for the protection.

He denics any threats in the letters or any references whatever to dynamite.

"I never saw dynamite and would not know it if I saw it," he said.

He claimed that all that was contained in any of the letters was a proposition to each of the men addressed to forward him the cost of transportation to Washington and an offer to come on there and make a

As the Presbyterian churches did not have Christmas services, none of the Whife house family went to church. President and Mrs. Cleveland took advantage of the bright weather about noon and drove about the city. This afternoon, little Margarett Bissel, daughter of the postmaster-general, had a Christmas tree, at which Mrs. Cleveland, with Ruth and Esther, Mrs. Carlisle and the youthful members of her family, Mrs. Thurber and various cabinet women and children were present. All attaches of the executive mansion were remembered by the president, most of them receiving turkeys, and those of the longest services getting articles of more permanent use. Secretary and Mrs. Gresham had a Christmas dinner at the Arlington. Secretary and Mrs. Lamont had a Christmas tree for the little ones. Howden said today: "I am more firmly convinced the match will take place than I have been at any time since the contest was talked of. We are rushing the arena to a rapid completion and making all the necessary arrangements. In spite of the governor's letter, we feel sure he will not interfere if it should be authoritatively demonstrated the proposed match is not in volution of law. We expect this week to get an adjudication of the question. If our position is sustained, we will continue our course. If the decision be against us, the match will be declared off. a question of but a few weeks untill suits may be brought that will disintegrate and ruin the system; therefore, in consideration of all these numerous alienations, a receiver or receivers are asked for the property. Accompanying this bill was the answer of the Santa Fe company, George R. Peck, general solicitor of the company, answering the charge, confessed that all the statements were true; that the Santa Fe was wholly insolvent; that the creditors were growing impatient and liable at any time to close in on the company. J. W. Reinhart, president of the company, and Peck make this confession in New York and swore to it before a notary on December 20, the day before the bill asking for receivers was sworn to. This goes to show the president but the company and Peck make this confession in New York and swore to it before a notary on December 20, the

day before the bill asking for receivers was sworn to. This goes to show the receivership were brought about by the Santa Fe company itself because it desired to give up the fight and get under the protecting wing of the court. The receivership of the Santa Fe was not brought about so much by the probable default in money interest payments as by the company's utter disability to meet the floating debts. The Barings did not bring about the collapse. Magoun's death did not cause of

Magoun's death did not cause or even hasten it. The company is hopelessly in debt and Reinhart went all the way to London a few days ago to bet \$1,000,000 not to pay the interest as every one supposed, but to pay the floating debt. Reinhart remained in London a week. He could not get a cent, and when he reached New York City on his return his first official act was to order the preparation of receivership papers. It now develops that certain people in Topeka have known since August that the Santa Fe could last but a few months. Officers of the United States court were on the lookout for papers almost daily and when it was announced that Reinhart had failed to get the money in London, ten days ago, the receivership was a foregone conclusion.

This plan will not involve any assessment of stock or shrinkage in value of the interest rate of bonds, but will be formulated by the use of the collateral of the company as a basis for a collateral trust.
